Portfolio: https://dalandv.github.io/Portfolio/index.html

Full-Stack Web Developer with experience building projects using HTML, CSS, Javascript, jQuery, Bootstrap, Node, Express, MySQL, MongoDB and React. I am also a graduate of University of Pennsylvania's Penn LPS Coding Bootcamp. I love a challenge and the satisfaction you get after putting in all those hours of trial and error. Putting together a project you can be proud of makes it all worth it.

Technical Skills:
Node.js, Express, JavaScript, jQuery, React.js, GIT, Github, MongoDB, MySQL, Firebase, HTML, CSS, Bootstrap, Media Queries, APIs, JSON, REST, AJAX, the command line

APPLICATIONS BUILT

Clicky Game
- A front end app to test your memory
- I built this to familiarize myself with React
- Built in React
- Link to Project: https://dalandv.github.io/clicky-game/
- Link to Github Repo: https://github.com/DalandV/clicky-game

Sequelized Burger
- A full stack app I used to learn Sequelize and Handlebars
- Originally made with plain MySQL but was later refactored to use Sequelize
- Node, Express, MySQL, and Handlebars
- Link to Project: https://sequelized-burger-39176.herokuapp.com/
- Link to Github Repo: https://github.com/DalandV/sequelizedBurger

FriendFinder
- An app I used to learn familiarize myself with Express and routes
- Node and Express
- Link to Project: https://friend-finder-41843.herokuapp.com/
- Link to Github Repo: https://github.com/DalandV/FriendFinder
